

ALLSTORE | Digital Store Transformation

Allstore enables you to transform your store digitally for your customers, employees and improve processes.

- ✓ Management of conventional store back office processes – inventory, fixed asset counting, permits, requests
- ✓ Smart guidance and assignment of employees (Periodic task assignment, job sharing, tasks from sensors for the store or central intelligent routing, sharing product/service details with customers)
- ✓ Digital assistant to help and assist the customer during the shopping journey.
- ✓ Empowers employees to connect and engage with customers in the moment
- ✓ Product traceability with Blockchain
- ✓ "InStore Display" for store
